Letter of Recommendation

To Whom It May Concern,

I am writing this letter to enthusiastically recommend Mary Castillo for admission to your PhD program in Computer Science. As a professor who has had the privilege of teaching Mary in several advanced computer science courses at Peking University, I can attest to his exceptional academic abilities, strong research potential, and outstanding character.

Mary has consistently demonstrated exceptional academic performance throughout his undergraduate studies, maintaining an impressive GPA of 3.8. His coursework in Computer Science and Technology has been marked by deep understanding, innovative thinking, and exceptional problem-solving skills. He has shown particular strength in programming, algorithm design, and theoretical computer science concepts.

What sets Mary apart from his peers is not just his academic excellence, but his genuine passion for research and innovation. He has actively participated in research projects, demonstrating strong analytical skills and the ability to work independently on complex problems. His lively personality and collaborative nature make him an excellent team member, while his independent thinking allows him to contribute unique perspectives to group projects.

Mary's commitment to academic excellence is matched by his strong work ethic and dedication to learning. He approaches challenges with enthusiasm and perseverance, qualities that are essential for success in a rigorous PhD program. His ability to balance academic pursuits with extracurricular activities, including basketball and reading, demonstrates excellent time management skills.

I am confident that Mary will make significant contributions to your research community and will excel in your PhD program. His combination of academic excellence, research potential, and personal qualities makes him an ideal candidate for advanced studies.

I give Mary Castillo my highest recommendation without reservation. Please feel free to contact me if you need any additional information.

Sincerely,

Professor Lily
